

Moorfields Eye Hospital NHS Foundation Trust and Santen UK Limited

Executive Summary

To pilot a new pharmacy led medicines optimisation service providing educational support for ophthalmology patients

Executive Summary

Moorfields Eye Hospital NHS Foundation Trust is the leading provider of eye health services in the UK and a world-class centre of excellence for ophthalmic research and education. They have a reputation, developed over two centuries, for providing the highest quality of ophthalmic care.

Santen Pharmaceutical Co., Ltd. is Japanese pharmaceutical company, specialising in ophthalmology medicines. With its ophthalmic products Santen holds the top share within the Japanese market and is one of the leading ophthalmic companies worldwide, with its products being sold in over 50 countries.

As a leading company in the field of ophthalmology, Santen aims to contribute to society by supplying valuable products and services to satisfy unmet medical needs.

The project aims to pilot a pharmacy led medicines optimisation service providing educational support in outpatient clinics for ophthalmology patients to educate them in the management of their eye drop medications such that it will improve clinical outcomes through improved patient adherence

Intended Benefits

For the Patient	Improving patient care and outcomes through the education of patients in the use of their eye drops. Increased confidence that treatment is provided in the most effective way. Improved clinical outcomes and patient satisfaction
For the NHS	Pharmacy led medicines optimisation service providing educational support for ophthalmology patients in the management of their eye drop medications to improve clinical outcomes and reduce medicines wastage.
For Santen	Pharmacy led medicines optimisation to improve adherence to medicines which will improve clinical outcomes and reduce medicines wastage.
