

# Moorfields Eye Hospital NHS Foundation Trust and Santen UK Joint Working Agreement

## Advancing patient care through the use of a digital video slit lamp.

### Executive Summary

Moorfields Eye Hospital NHS Foundation Trust (Moorfields, the Trust) is the leading provider of eye health services in the UK and a world-class centre of excellence for ophthalmic research and education. Moorfields has a reputation developed over two centuries for providing the highest quality of ophthalmic care, and more than 1,800 staff who are committed to sustaining and building that reputation and ensuring that Moorfields remain at the cutting edge of developments in ophthalmology.

Santen is specialty pharmaceutical company dedicated to the ophthalmic field and carries out research, development, sales and marketing of pharmaceuticals and devices. Santen is the market leader in Ophthalmology in Japan for prescription pharmaceuticals and delivers products in approximately 60 countries.

As a leading company in the field of ophthalmology, Santen aims to contribute to society by supplying valuable products and services to satisfy unmet medical needs.

### Intended Benefits

For the Patient	Improved patient access to diagnostic equipment that incorporates the latest technology to improve disease diagnosis and monitoring which will lead to better health outcomes for patients.
For the NHS	NHS access to a diagnostic tool that improves patient care. Ability to view and record images that can be used in training NHS staff leading to higher quality more consistent care.
For Santen	Access to 25 anonymised digital videos and 25 images with full permission to use images in development of both internal and external educational materials and promotional materials. Images and videos supplied will cover MIGS procedures, dry eye disease, ocular surface disease and impact of ocular medicines.
